Voting: 11 year olds and older are at an age to understand the meaning of politics and voting

School: We need education for children for their up bringing in life. AND some teachers around New Zealand aren't getting enough pay.

Housing: State housing should be up to date with renovations and neighborhood upgrades.

Jobs: early teenagers should have a better chance of finding a suitable and high paying job.

Vaping is a very serious situation and should be kept afar from all the kids that are now doing it because it'll become addictive and could ruin your health !!! STOP VAPING

I think that most parents would love if the minimum wage knocked upwards a little bit even if it went up a dollar it would make some peoples lives easier with taxes and bills

Issues with parents consist of looking after their kids when their sick and gas prices going up

taxes are a issue for adults because they could be struggling and the taxes are only makes it worse Tax rates are getting higher and adults aren't getting a high income such as Teachers, Construction Workers etc.

Petrol costs are costing a lot more now adults who work a job long from home are having to cut budgets on food and all their other needs and are taking a long way plus there incom

Healthcare: Although prescriptions are free, the government should cover at least 20% of the price of non free prescriptions to those who doesn't have the money.

Thinking that their not good parent even though their trying their best to provide for us kids

Making sure that their children are having a good school life. People over 65+ are getting old are can't move around and they don't get income so they have to have someone who can do all of that with them.

I think that people over 65+ do not have an oppurtinuty to do what most voung kids can so i think they would like if they were able to be as flexible and durable as a kid

They probably see how us kids are having fun and wished that they had their youth back

They want to spend time with their family but sometimes cannot be able to visit them and have fun

Some of them probably wants some company and feel lonley sometimes?

Some people might not actually be happy by retiring at 65+ because their might be issues with Home and Taxes that might need paying off. but they can't cause they're retired.

Spending time with their family

They would probably not have to worry about how much money they spend on taxes and doctor stuff.

People over 65+ might just wanna come back to working but they might not be able to because there might be jobs that are not fit for their age.

Having a good life before they pass away

Not getting enough energy like us kids and they don't get enough exercise

Getting older and older as they live on

vour husband or wife passing before you.

They want what's best for the next generation

People 65+ might want to go back home but have people that are there just incase something happens

People over 65 would probably worry about how they want to spend the rest of their life.

They would probably want to spoil their kids or grandkids as much as they can before they pass away

The elderly should get good services for a cheap amount of money, covering all their expenses. like 50 to 100 dollars for finance.

> **Army veterans** over the age of 65 should get cheap healthcare prices.

Over 65's should at least 50% off flight, train or toll prices so they can visit their family.

Not diminishing their energy as much as much as they would like 20 years ago.

So basically if their retired their rich :D
